

POWERFUL. AFFORDABLE. DEPENDABLE.

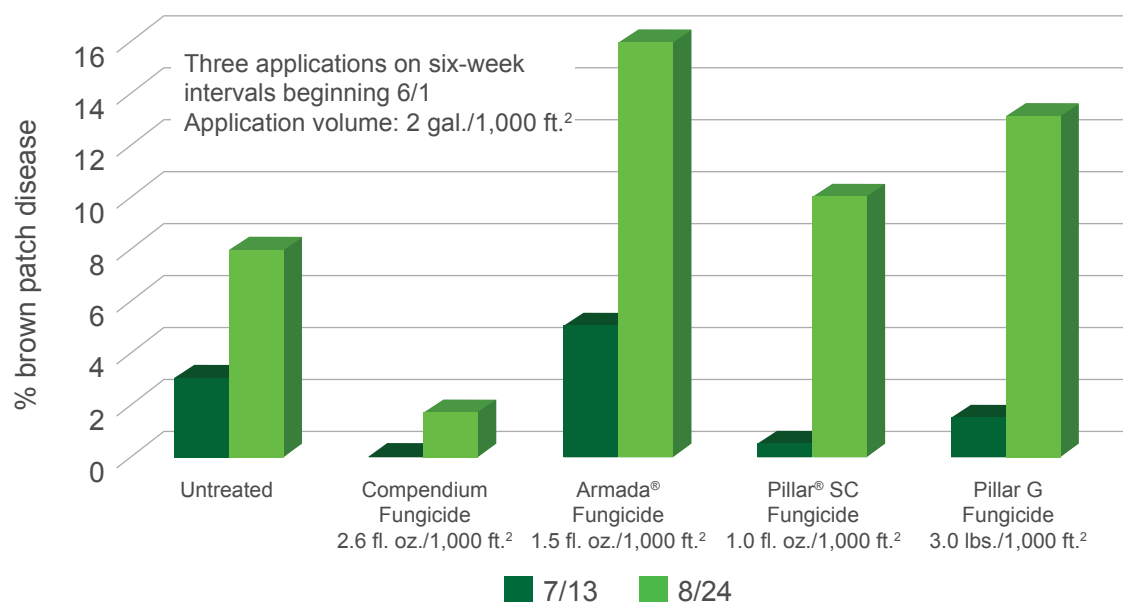

Compendium® fungicide combines the strength of two leading active ingredients, *azoxystrobin* and *propiconazole*, to control key turf diseases. Specifically designed to fit the agronomic and economic needs of lawn care companies, Compendium simplifies disease control and enhances profitability, all with the convenience of a single product.

Without the stress of specific disease identification or mixing with other products, lawn care operators can trust Compendium to control key turfgrass diseases, including:

- Brown patch
- Dollar spot
- Fairy ring
- Gray leaf spot
- Gray snow mold
- Large patch
- Leaf spots
- Microdochium patch
- Pink snow mold
- Spring dead spot
- Summer patch
- Rust

Preventive disease control with Compendium is an important part of promoting denser, greener, more beautiful lawns that are noticed by customers and their neighbors.

Brown patch control on tall fescue

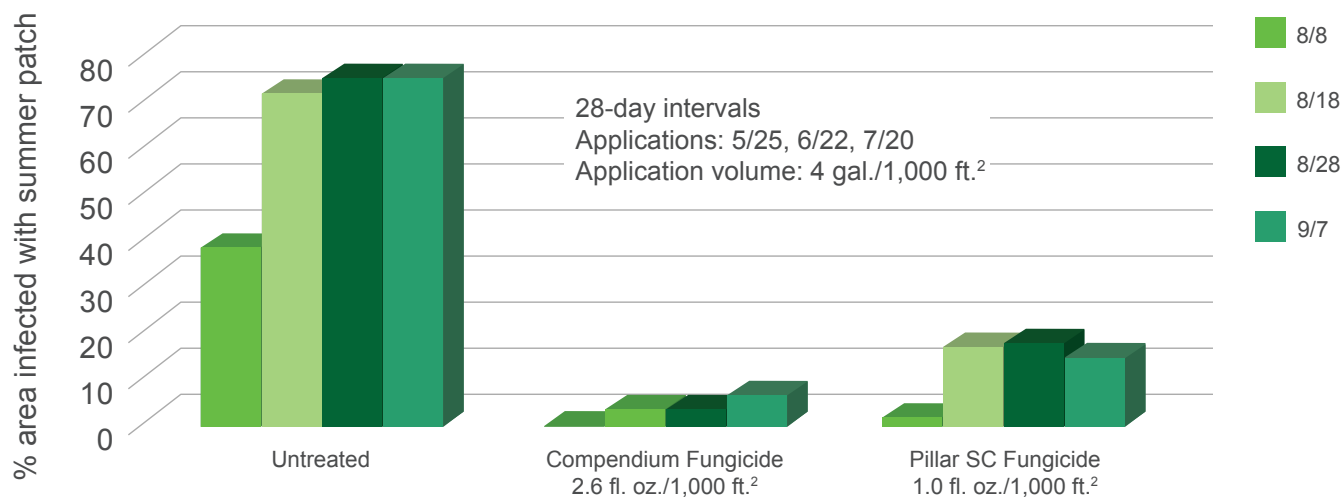

Source: Dr. Brandon Horvath, University of Tennessee. Trial performed on 'Stetson II, Warrior and Padre 2' 4" HOC tall fescue. Three applications made on six-week intervals on June 1, July 13 and Aug. 24, 2023.

Features and benefits

- Comprehensive control for cool- and warm-season turf
- Two modes of action provide strong control while protecting against the development of resistance
- Powerful, value-driven disease control for enhanced profit potential

Summer patch control on Kentucky bluegrass

Source: Dr. Ming-Yi Chou, Rutgers University. Trial performed on 'Baron' 1.5" HOC Kentucky bluegrass. Three applications made on 28-day intervals on May 25, June 22 and July 20, 2023.

Application flexibility

With Compendium, there is no need to pre-mix to receive broad-spectrum control. There is one product to measure, one product to apply and fewer containers to triple rinse.

Compendium can be applied across all seasons for comprehensive lawn disease control.

Use rates: 0.65-2.6 fl. oz./1,000 ft.²
